Providence VA Medical Center
830 Chalkstone Ave
Providence, RI 02908

*Participation is completely voluntary.
You may discontinue your participation
at any time without any consequence.*

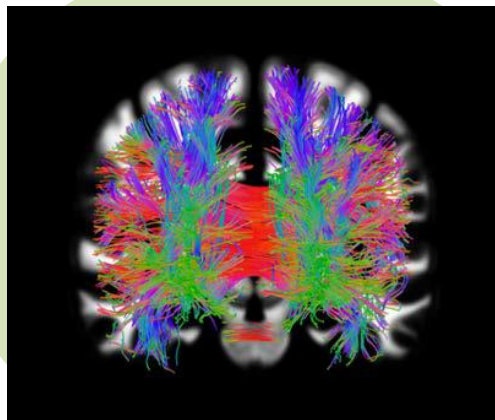

Version: 3/6/2023

Functional (Nonepileptic) Seizures Research Study

What is the Study?

- Researchers at the Providence VA Medical Center want to understand thinking skills, memory, and mental health in Veterans who have functional (nonepileptic) seizures.
- We also would like to test to use of a video appointment for completing tests and surveys remotely.

All information is kept strictly confidential.

What Happens During the Study?

- An initial assessment (up to 20 min.) will be done by the study staff to determine eligibility.
- If eligible, the approximately 4-hour study visit (or two visits) will be scheduled for a future date.
- You will be asked to complete cognitive tests and mental health surveys remotely, using an internet connection to a study member who will be located in Providence, RI.

You may receive up to \$70 for completing the study.

1 or 2 visits over VA Video Connect.
